

Precision BioSciences to Present at the Upcoming H.C. Wainwright 5th Annual Viral Hepatitis Virtual Conference

October 3, 2024 at 7:01 AM EDT

DURHAM, N.C.--(BUSINESS WIRE)--Oct. 3, 2024-- Precision BioSciences, Inc. (Nasdaq: DTIL), an advanced gene editing company utilizing its novel proprietary ARCUS® platform to develop in vivo gene editing therapies for sophisticated gene edits including viral gene elimination, today announced that the Company will present during a fireside chat at the H.C. Wainwright 5th Annual Viral Hepatitis Virtual Conference taking place October 8, 2024.

Presentation Details:

Date: October 8, 2024

Time: 11:00AM ET

Format: Fireside Chat

Webcast Registration: [Link](#)

The presentation will be available on Precision's website under the Investors section under Events & Presentations at investor.precisionbiosciences.com. An archived replay will be available for approximately 30 days following the event.

About Precision BioSciences, Inc.

Precision BioSciences, Inc. is an advanced gene editing company dedicated to improving life (DTIL) with its novel and proprietary ARCUS® genome editing platform that differs from other technologies in the way it cuts, its smaller size, and its simpler structure. Key capabilities and differentiating characteristics may enable ARCUS nucleases to drive more intended, defined therapeutic outcomes. Using ARCUS, the Company's pipeline is comprised of in vivo gene editing candidates designed to deliver lasting cures for the broadest range of genetic and infectious diseases where no adequate treatments exist. For more information about Precision BioSciences, please visit www.precisionbiosciences.com.

The ARCUS® platform is being used to develop in vivo gene editing therapies for sophisticated gene edits, including gene insertion (inserting DNA into gene to cause expression/add function), elimination (removing a genome e.g. viral DNA or mutant mitochondrial DNA), and excision (removing a large portion of a defective gene by delivering two ARCUS nucleases in a single AAV).
