

Precision BioSciences Announces \$40.0 Million Offering of Common Stock and Warrants

DURHAM, N.C.—March 1, 2024 – Precision BioSciences, Inc. (Nasdaq: DTIL) (“Precision”), an advanced gene editing company utilizing its novel proprietary ARCUS[®] platform to develop in vivo gene editing therapies for sophisticated gene edits, including gene insertion, excision, and elimination, today announced that it has agreed to sell to the public by way of an underwritten offering 2,500,000 shares of its common stock and accompanying warrants to purchase up to 2,500,000 shares of common stock at a combined offering price of \$16.00 price per share, for total gross proceeds of \$40.0 million, before deducting underwriting discounts and commissions. The warrants have an exercise price of \$20.00 per share and are exercisable immediately and will expire five years following the date of issuance. The financing consisted of participation from leading life sciences investors, including Perceptive Advisors, Janus Henderson Investors, Aquilo Capital Management, LLC and LYFE Capital.

In addition, Precision BioSciences has granted the underwriter a 30-day option to purchase up to an additional 375,000 shares of its common stock and/or warrants to purchase up to 375,000 shares of common stock, at the combined public offering price and less underwriting discounts and commissions. The offering is expected to close on or about March 5, 2024, subject to customary closing conditions. All shares of common stock and accompanying warrants to be sold in the offering will be sold by Precision. Precision BioSciences intends to use the net proceeds of the offering to help fund ongoing and planned research and development, and for working capital and general corporate purposes.

Guggenheim Securities, LLC is acting as sole book-running manager for the offering.
